The courses can be delivered in

- German
- English
- French
- Italian
- Swedish
- Dutch

(the materials are in English)

## More information?

Do you have any questions about the programme, the trainers or possibilities for in-house courses? Please contact Suzan de Kleer at [academy.de@dnv.com](mailto:academy.de@dnv.com) or 0201-7296 229 or check [www.dnv.de/itgs/academy](http://www.dnv.de/itgs/academy)

- Do you wish to upgrade your CMMI knowledge to be up to speed with the latest developments?
- Would you like to be educated by a well experienced and officially accredited instructor?
- Do you plan for a CMMI Version 1.2 appraisal?

If your answer to one or more of these questions is yes, you should register for our CMMI Upgrade course.

## CMMI for Managers Course

CIOs, Software Development Managers, Senior Architects and many other levels of management responsible for improvement projects are dealing with the problems of system and software process maturity. CMMI has become an essential tool for managers to satisfy the need for management information and benchmarking. With the new version 1.2, the SEI has put together a lot of improvements and learnings to support managers even further in their challenge.

## Major Changes

- Model name changed to “CMMI for Development”
- Both representations combined into one document
- Improved amplifications; added hardware amplifications and examples
- Eliminated common features and advanced practices
- Eliminated Supplier Sourcing; integrated ISM with SAM
- Improved overview and glossary
- Added work environment material to OPD and IPM
- Strengthened process deployment in OPF and IPM
- Consolidated IPPD coverage into OPD and IPM and
- Simplified to be consistent with other CMMI material

**Other courses DNV – Q-Labs offers are:**

- CMMI three-day course
- CMMI one-day course for managers
- Requirements Engineering
- Testing
- SPICE one-day course for managers
- SPICE three-day course

**CMMI Version 1.2 for Managers Course**

This course will give you an overview of the CMMI model and the most recent changes in the new version 1.2. The course will be taught by a well experienced trainer and management consultant who is a SEI certified trainer. The course agenda will be divided into two parts:

- CMMI overview  
In this part, we will show you the concepts behind CMMI and the most current components of the model.
- CMMI for executives  
During the second part, you will obtain more detailed knowledge of the model components which are of special interest to you as a manager.

**Participants:** CIOs, Software Managers, Outsourcing Managers, Management Consultants, Senior Project Managers

**Prices:** 1 day, □ 450 including lunch, coffee & tea.

**Course dates in 2007**

27.08.2007  
15.10.2007  
12.11.2007
