 - Builders and suppliers
 - Platform improvements

Efficient and cost effective management of your vessels with DNV Exchange October release

■ Personal services

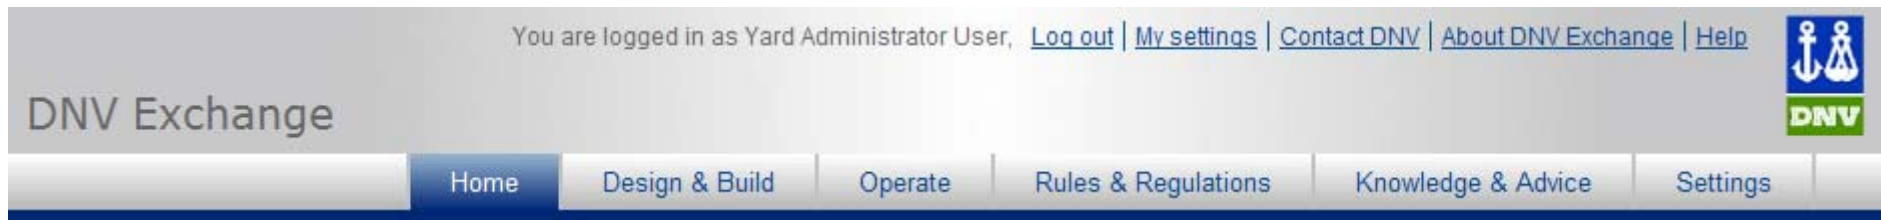

- The home page shows vessels due within the **time period you** select
- Subscribe to **e-mail alerts** today so you can better plan and manage classification and statutory certificates and surveys for your vessels.
- E-mail subscription of Class Status report easy to set up for a vessel or for “My fleet”
- Offline version for use onboard or when travelling.

■ Existing services improved

- Online survey requests more user friendly and robust
- Easier to add or change users within your company
- eApproval can now be used for conversions, not only newbuildings

We have, by no means, finished our quest for a better product – next major release is planned for February 2008.

DNV Exchange menu structure reflects the vessel's life-cycle and customer groups

Home page with content adapted to

- builders and suppliers
- managers and owners

Easy access to **eApproval** for vessels under construction for builders and suppliers

Easy access to **classification status** for vessels in operation for managers and owners

Completely rebuilt and easy to use **user administration**

E-mail alerts provides overview of “soon due” or “overdue” items

My alerts

Alert me on my homepage before a certificate, survey or condition becomes overdue.

Send me an e-mail notification

Alerts are usually sent on Sundays

My subscriptions

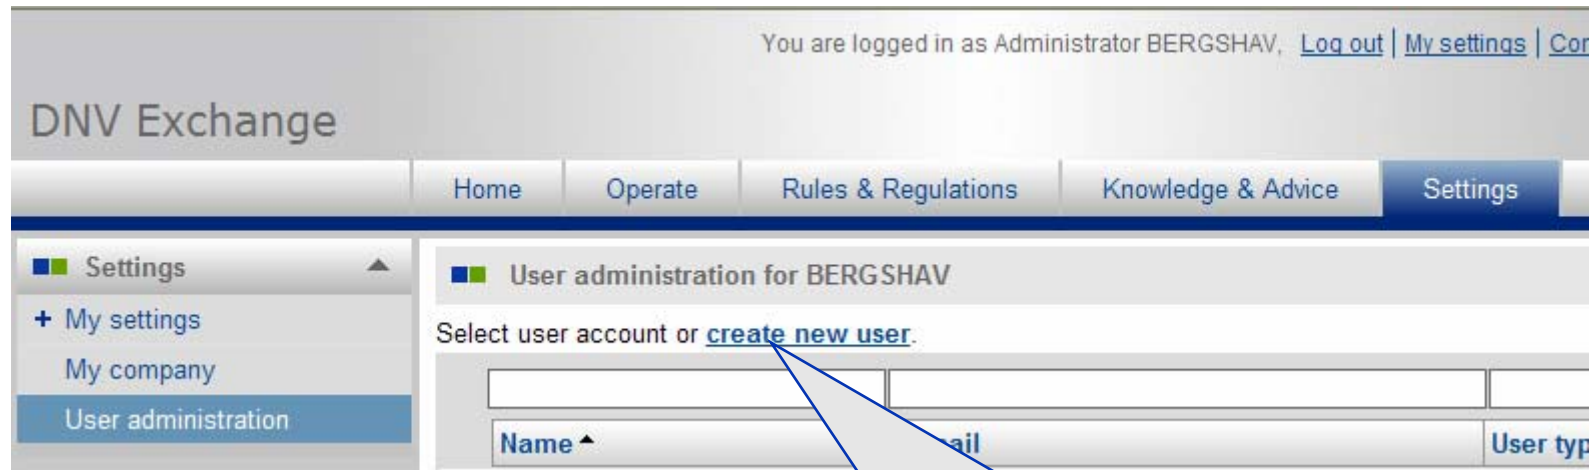

Class Status

Class Status Report

- Subscribe to email alerts today so you can better plan and manage classification and statutory certificates and surveys for your vessels.
- You select the time parameters for e-mail alerts, based upon your vessel sailing routes and maintenance plans.
- In less than a minute, you can activate email alerts to be sent to yourself, directly to your vessel, or both.

Avoid the surprises, time and expenses of overdue certificates or survey items and spend this time on effectively managing and operating your fleet.

You must be defined as a user in DNV Exchange to benefit from e-mail alerts

You are logged in as Administrator BERGSHAV, [Log out](#) | [My settings](#) | [Cor](#)

The DNV Exchange administrator in your company can easily create additional users without additional license costs.

You must define "My Fleet" to receive e-mail alerts

■ ■ My fleet - Days to overdue

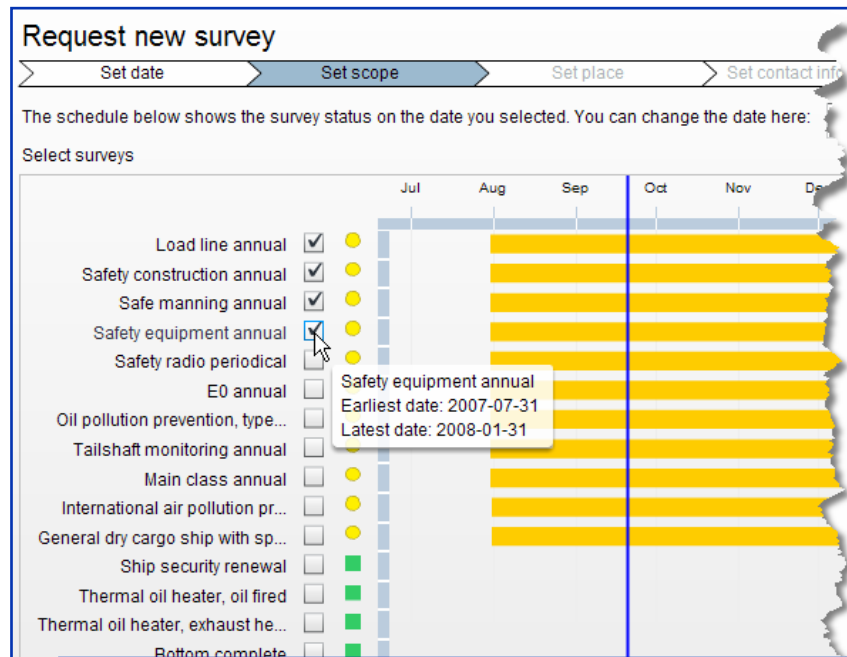

■ ▲	Vessel	Certificates	Surveys	Conditions	Status report	DNV survey
●	 VESSEL 1	25	172	22	 Get new	<input checked="" type="checkbox"/> Request
■	 VESSEL 2	767	365		 Get new	<input checked="" type="checkbox"/> Request
■	 VESSEL 3	460	460		 Get new	<input checked="" type="checkbox"/> Request

3 vessels [Add / remove vessels](#)

"My fleet"

- Easy to define
- Your vessels immediately in focus

Simple and direct online survey request

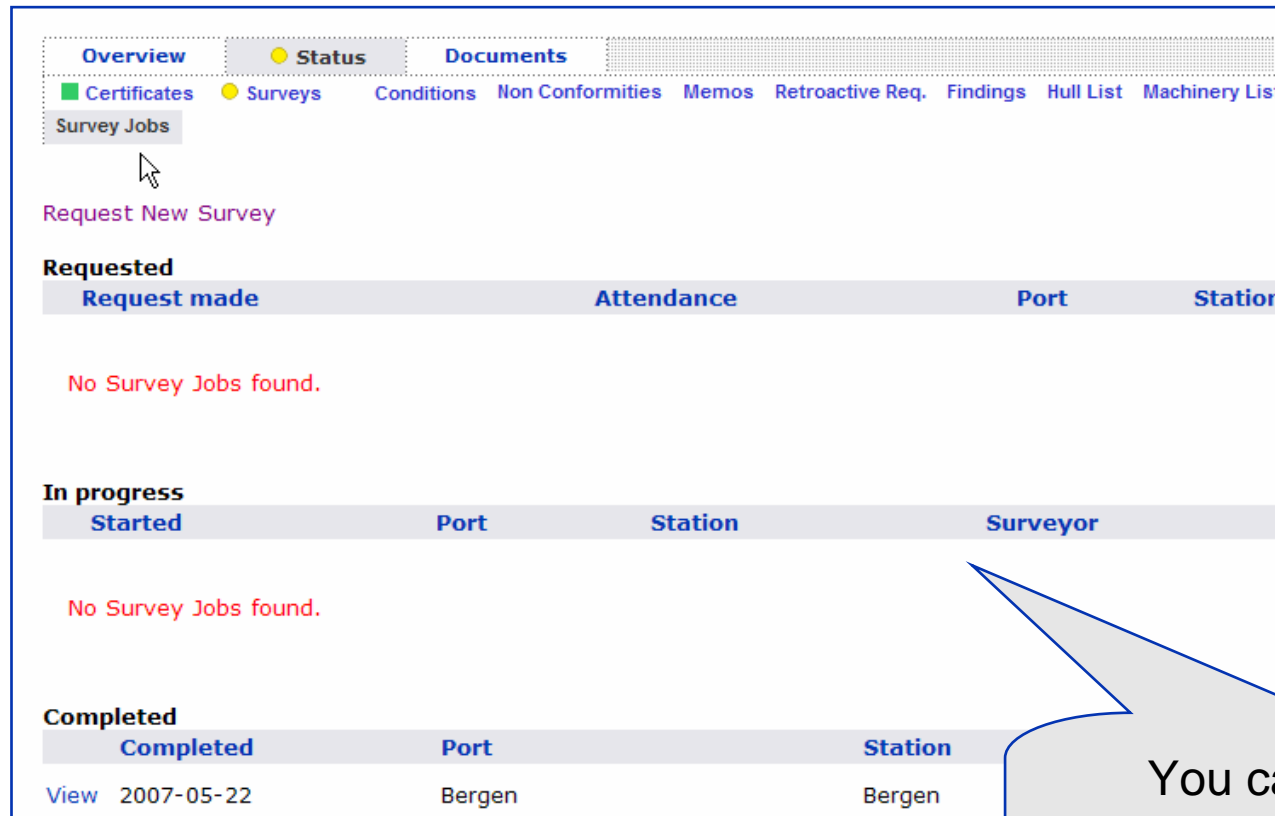

- See the survey status quickly and easily, including the due dates and time windows
- Submit an on-line survey request at the same time and manage this actively one time – efficiently
- Accepts long breaks
 - You may continue on the survey request after several hours break without losing data entered

Last date for sea and sanitary valves.....

Sea and sanitary valves last opened up:

2006-11-22

- Last date for opening of sea and sanitary valves is now available under **Hull Summary**

Updated class status is available anywhere with DNV Exchange Offline

- Lean and mean
- Make class info available with same “looks” as DNV Exchange
 - Onboard
 - On laptop when travelling
- Offline information may be updated automatically via an e-mail subscription or manually from DNV Exchange when you need it.
- We provide the information in XML format so that you can easily import the data into other programs – as you need.

DNV Exchange Offline provides same “looks” as the Internet version

The screenshot displays the DNV Exchange Offline application interface. The main window shows a 'VesselInfo' page for 'my fleet'. On the left, there is a sidebar with 'VesselInfo' and a list of three vessels. Each vessel entry includes 'Certificates' and 'Surveys' status indicators and a list of update actions: 'Class Status Data Updated', 'Class Status Report Updated', and 'Survey Reports Updated'.

The main content area shows 'Vessel 2' with the following details:

- VFSSFI
- Vessel 2**
- DNV ID: XXXX
- IMO No: 7708314
- Status: in operation

Below the vessel details, there is a 'Class Surveys' table. The table has columns for Status, Survey, Last Date, Due Date, T-, T+, and Postponed. The surveys listed include:

Status	Survey	Last Date	Due Date	T-	T+	Postponed
Not Due	Main class renewal	2003-12-29	2008-12-29	3	0	
Not Due	Auxiliary boiler, vertical shell type S (NA)	2005-11-30	2008-04-30	6	6	
Due	Main class intermediate		2006-06-29	9	9	
Not Due	E0 annual	2005-11-30	2006-12-29	3	3	
Not Due	Propeller shaft arrangement, oil lubricated	1995-05-18	2008-12-29	3	3	
Not Due	Auxiliary boiler, vertical shell type P	2005-09-09	2008-04-30	6	6	
Not Due	E0 complete		2006-12-29	3	3	
Overdue	Machinery items		2006-08-10	0	0	
Not Due	Bottom complete	2003-12-29	2006-12-29	0	0	
Not Due	Main class annual	2005-11-30	2006-12-29	3	3	

Below the table, there is a section for 'Statutory/Other Surveys' with the message: 'No Survey found.'

DNV Exchange Offline can be updated weekly via small size e-mails
